

# The New ProQuest Platform

## راهنمای استفاده

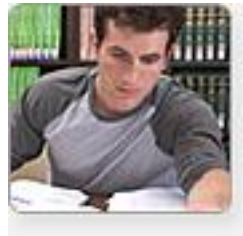

فرشته نوروزی

کارشناس ارشد علوم کتابداری و اطلاع رسانی

پایگاه اطلاعاتی معتبری شامل:

scholarly journals & Popular magazines articles, industry reports, and even multimedia content

- روزنامه ها
- پایان نامه ها
- مجلات آکادمیک
- مطالب منتشر شده در رادیو و تلویزیون
- گزارشات شرکتها
- کتابها
- مدارک دولتی
- نقشه ها و ...

- هنر
- تجارت
- بهداشت و پزشکی
- تاریخ
- زبان و ادبیات
- علوم و تکنولوژی
- علوم اجتماعی

در حال حاضر در دانشگاه علوم پزشکی مشهد دسترسی به پنج پایگاه زیر امکان پذیر می باشد:

- ProQuest Biology Journals
- ProQuest Dissertations & Theses (PQDT)
- ProQuest Health & Medical Complete
- ProQuest Nursing & Allied Health Source
- ProQuest Psychology Journals

# Keywords in Context

## Improved Results Page

*Instantly learn more about your results!*

**Article Preview** is a great new feature which provides you with more information about that result—without leaving the results page. Simply mouse over the word "Preview" and a light box will appear with more information. How great is that?!

**Keywords in Context (KWIC)** appear to help you get a sense of where your search terms appear within the full-text article, even with hit-term highlighting.

Because ProQuest content includes many types of sources such as scholarly journal articles, industry reports, and even multimedia content, we've made it easy for you to recognize the formats through the use of **thumbnail icons**.

**Narrow Results By** takes advantage of the high-quality indexing ProQuest offers, and easily allows you to narrow down your results set instantaneously to identify results that best match your research needs.

« Previous | Next »

The screenshot shows the ProQuest Science & Technology search results page. At the top, it indicates the search is across 20 databases. The search term is "wind energy or wind power", resulting in 350,116 results. The page features a search bar with filters for "Full text" and "Scholarly journals". Below the search bar, there are options to "Set up alert", "Create RSS feed", and "Save search".

The results are sorted by "Relevance". The first result is titled "Iberdrola Renewables; Iberdrola Renewables Supplies 50 Megawatts to We Energies from Barton Wind Power Project". The snippet for this result is: "...able to supply energy from an operating wind power plant while We Energies ramps ...Energy, Utilities, Wind Energy, Wind Farm, Wind Power, Wisconsin Energy." The second result is "Optimization of the Regional Spatial Distribution of Wind Power Plants to Minimize the Variability of Wind Energy Input into Power Supply Systems". The snippet for this result is: "...to conventional power generation, wind energy is not a controllable resource ...efficient integration of wind energy in power systems and electricity ...wind speed data to wind power and wind energy has been tested with the". This snippet is highlighted with a red box. The third result is "Canada's electrical power from wind stands at 200 megawatts; A 500 per cent increase would still leave us meeting only one per cent of electricity demand from wind".

On the right side of the page, there is a "Narrow results by" section with a dropdown menu set to "Relevance" and a "Sort" button. Below this, there are several filters: "Source type" (Scholarly Journals: 115574, Trade Journals: 79018, Magazines: 35492, Newspapers: 30596, Wire Feeds: 23777), "Publication title", "Document type", "Keyword", "Subject", "Classification", and "Company/Organization".

## Low in B Vitamins? Depression May Be Lurking

Anonymous. Tufts University Health & Nutrition Letter 28. 8 (Oct 2010): 6.

Other formats:  Citation/Abstract  Full text - PDF (92 KB)

[Turn off hit highlighting](#)

Abstract (summary) [Translate](#)

Reporting their findings in the American Journal of Clinical Nutrition, Kimberly A. Skarupski, PhD, of Rush University, and colleagues commented, "In the assessment and treatment of depressive symptoms in older adults, clinicians and other healthcare professionals...

[Show all](#) ▾

Full Text [Translate](#) | [Turn on search term navigation](#)

Previous studies have suggested that **B vitamins** might help protect against **depression**, but these were mostly snapshots at a single point in time. Now a new study connects **B-vitamin** intake among 3,503 seniors, initially free of **depression**, over a span of 12 years: For every 10-milligram increase in daily **vitamin B6**, risk of developing **depression** declined by 2%. The same was true for every additional 10 micrograms of **vitamin B12**.

Reporting their findings in the American Journal of Clinical Nutrition, Kimberly A. Skarupski, PhD, of Rush University, and colleagues commented, "In the assessment and treatment of depressive symptoms in older adults, clinicians and other healthcare professionals should be mindful of the patient's nutritional status in general, and whether there are **vitamin** insufficiencies in these nutrients before treatment."

They looked for effects of such insufficiencies on **depression** among participants in the Chicago Health and Aging Project, average age 73.5. One-third were widowed, 59% were female and 59% were African American. Both dietary and supplement intake of B6 and B12 were linked to reduced risk of **depression**. The association

## Deep Indexing and Thumbnail Images

The results screen will surface thumbnail images that appear within an article—allowing you to go deeper with your research. ProQuest's award-winning Deep Indexing technology indexes information *within the images*, which allows you to search and identify critical information that is often missed in charts, figures, and graphs. ProQuest uses an average of eight index terms to every image in a journal article to help you find what you are looking for faster!

When viewing the full record, you can view more information about the record. Need the charts or graphs for a presentation? Take advantage of our [Save to presentation feature!](#)

« [Previous](#) | [Next](#) »

« [Previous](#) | [Next](#) »

The screenshot displays three search results in a list view. Each result includes a title, author information, and a 'Featured Content: Indexed figures and tables' section with five thumbnails labeled Fig. 1 through Fig. 5. A red rectangular box highlights the second result, 'Potential of wind power projects under the Clean Development Mechanism in India'. A tooltip window is open over the 'Figure 3' thumbnail, displaying a map of India with red dots indicating wind power potential sites. The tooltip text reads: 'Figure 3', 'Caption: Wind power potential in India (Source: Centre for Wind Energy Technology (C-WET), Government of India).', and 'Type: Study Site Map; Map; Figure'. Below the map, it says 'View Record Available in full size'. The third result, 'Adverse impacts of wind power on anti-predator behaviour of squirrels', is partially visible below the red box. The bottom of the screenshot shows the start of the fourth result, 'Adequacy assessment of composite power generation and transmission'.

Sort results by: [Relevance](#) ▾ Items per page: [20](#) ▾

Include duplicate documents ?

### How find similar works

Find Similar identifies key terms within the text you enter, using them to search for related content.

### Search tools

#### Search tips

Enter 50 or more words to get the best results.

# Find Similar

این گزینه مدارک مشابه و مرتبط با مقاله یا مطلب مورد نظر شما را پیدا می کند. کافی است یک قسمت از متن کامل مقاله یا چکیده را در این قسمت کپی کنید تا **Find similar** کلیدواژه های اصلی را به طور هوشمند شناسایی کرده و مدارک مرتبط با مطلب شما را بازیابی کند.

برای گرفتن بهترین نتیجه سعی کنید ۵۰ کلیدواژه یا بیشتر در این قسمت وارد کنید.

# Look Up Citation

هر اطلاعات کتابشناختی که از یک مقاله یا مطلب  
دارید می توانید در این قسمت وارد کنید مانند عنوان  
مطلب، نام نویسنده، نام ناشر، ISSN و ... .  
در این حالت جستجوی سریعتری خواهید داشت.

## Basic Search

Searching > Basic Search

### Search Subject Areas

Enter one or more words and click **Search**.

Enjoy looking through your search results. [Open and view documents](#) that interest you. A document can be anything from a newspaper article, to a photograph, PDF, or video.

### Things to know

What ProQuest is doing with the words you entered:

ProQuest looks for your words (search terms) in the following document information:

- document titles
- authors
- abstract
- subjects
- full text
- [tags](#) (user-generated tags)

If you enter more than one word, **eternal love** for example, ProQuest will look for documents that contain both **eternal** and **love** in any of the document information listed above.

### All fields (no full text)

### Search for an exact phrase

Surround your words with quotation marks—"eternal love" or "life after death"—to force ProQuest to look for your words as a phrase only, rather than finding each word separately.

### Find out what databases you're searching

Information about what databases you are currently searching is displayed in the blue bar at the top of the
